

APRIL 2013

LONG LIVE THE QUEEN (AND THE QUEEN OF EVERYONE'S LIFE)!

A LITTLE RAIN CAN NOT HINDER THE REIGN OF A TRUE QUEEN (OR KING). LEADERS WALK ON, GIVING SISTERS AND ALL OF US HOPE.

60K Participants in 2012 set strong example

Walking in the rain does not appeal to most people, but you never would guess that by looking at the faces of the walkers (and crew) of the 2012 60K Walk last October. Wet skies came and went and came again throughout the weekend, yet this group prevailed and

proudly walked into the Olympic Stadium in Amsterdam to be honored for the 516,000 euro they had helped raise for breast cancer research in The Netherlands.

We need more walkers this year because there are several extremely

promising research projects still waiting for funding. The treatment or cure that saves the life of someone you love could be among those projects. Get registered TODAY.
